You will need to contact an environmental consultant to have them work on the costs. You can find them in the phone book. You should get three bids for this project.

Thank you for this information. I would appreciate more information about the requirements and cost to clean up this site.

Also could you please refer us to the appropriate available remediation resources.

Peace,

Dorlista R. Reed

The contamination at this site is primarily hydrocarbon related and the fishbone treats lead not hydrocarbons. As such this site would not qualify for that treatment. If you have any further questions please feel free to call me.

**Subject:** 3600 MacArthur Blvd. Oakland

Please find the attached information. I am interested in obtaining this vacant property for the creation of a small Nursery to serve the Disabled and Mobility impaired. I am negotiating acquisition of the above property for our Non-profit Collective. I want to know if this property would qualify as a Fishbone Soil Decontamination Project through the Environmental Protection Agency. If there is funding available for such projects, our group would be very interested in applying.

Schooter Wilson Property  
3600 MacArthur Blvd.  
Oakland, CA  
GEO Tracker # T0600102113  
Alameda County Case No. R00000280

I was also provided with the following contacts who have additional information about this property:

S.F. - Sherie McCaulou (510) 622-2300 and Barbara Jakub (510) 639-1287, Cleanup Site Agency CUE FUND # 11842  
Priority B.  
Monitoring wells on site for ground.
