Hi Delong-

Have you had a chance to look this over? If you do not respond soon we will have to move ahead with well decommissioning activities, which may result in you having to drill additional sampling locations in the future at additional cost to you. It is preferred by BP and the Alameda County Environmental Health Agency that these wells be transferred to you as the new Responsible Party. Please feel free to call me if you have any questions or would like to discuss this agreement further.

Thank you,
