Subject: RE: Former Chevron Station 9-0121 RO 284 Work Plan Extension Request

Hi Nate, Catalina,

Nate thanks for the returned call in regards to a potential additional letter from ACEH requesting access. I'll hold off for another month per your recent letter to the property owners. Obviously I would like to see a bit of progress, and this could go on indefinitely. In the interim, please use this as ACEH agreement with the requested extension date for the work plan addendum.

Subject: Former Chevron Station 9-0121 RO 284 Work Plan Extension Request

Mark,

This is an update regarding access to the properties adjacent to Former Chevron Service Station 90121 located at 3026 Lakeshore Avenue, Oakland. An access agreement has been established between Chevron Environmental Management Company (Chevron) and the property owner at 3014 Lakeshore Avenue, Oakland. Chevron is sending an additional letter to the property owner at 3008 Lakeshore Avenue, Oakland once again requesting access to their property. Conestoga-Rovers & Associates (CRA) will update Alameda County Environmental Health (ACEH) on the access status of 3008 Lakeshore Avenue approximately a month after the letter is sent to the property owner. Chevron has still received no response from the property owner located at 3000 Lakeshore Avenue, Oakland since ACEH letter to the property owner dated December 28, 2011.

In order to complete the Work Plan Addendum requested by ACEH in a letter dated June 6, 2011, CRA requires access to the adjacent properties in order to provide a figure with the locations of proposed sub-slab vapor probes.

As this Work Plan Addendum is dependent of access, CRA on behalf of Chevron is requesting an extension for the work plan addendum to be **September 28, 2012**.

Thanks,

Nathan Lee, P.G.
