Subject: RE: Case No. RO0000284, Former Chevron 9-0121; 3026 Lakeshore Ave, Oakland - Site Investigation Report - Extension Request

Nathan,

Please use this email to document ACEH approval of the work submittal extension. Due to the City of Oakland's street encroachment restrictions during the holidays an additional may be required.

Subject: RE: Case No. RO0000284, Former Chevron 9-0121; 3026 Lakeshore Ave, Oakland - Site Investigation Report - Extension Request

Mark,

GHD Services Inc., (GHD) on behalf of Chevron Environmental Management Company (EMC) would like to request an extension for the *Site Investigation Report* requested by Alameda County Environmental Health's (ACEH) letter dated March 23, 2015. The reason for the extension is, we have not yet to received an encroachment permit for the installation of the offsite wells from the City of Oakland. As you know, based on previous experience with the City of Oakland permitting agency on other cases, obtaining an encroachment permit from the City of Oakland is a lengthily process. The City of Oakland also recently implemented an online permitting process. The online process required a lengthily registration process. We will keep you updated on the permitting process with the City. We have currently made all the requested changes the City of Oakland required when we talked with the city last month. We are resubmitting the encroachment permit package and keep you informed on the process. Therefore an extension of **January 8, 2016** for the *Site Investigation Report* is requested. This extension date is dependent on when the City issues an encroachment permit.

Thanks,

Nathan Lee. P.G.

GHD

Mark and Nate,
I have updated Geotracker with the revised submittal date of October 2, 2015. Good luck with the city. Please reserve a drilling date with drillers in an effort to avoid the November 1 to January 1 street drilling prohibition in the City of Oakland.
