**Subject:** Revised due date for Owens-Brockway Oakland SCM

Good afternoon Paresh, per our conversation earlier today, I would like to thank you for your time and for referring me to the Alameda County LOP online information. As we discussed CKG has prepared the Site Conceptual Model for the Owens-Brockway glass bottle forming facility at 3600 Alameda Avenue but we are finding some difficulty with missing data, and feel that additional time would result in a much more comprehensive product. I know we had initially talked about a revised due date of April 1 but in consulting with my database specialist he felt that Friday April 3 would be better since he is scheduled to be out of town all next week.

We feel confident that the final Site Conceptual Model will be a solid comprehensive document and provide a tool to allow us to move forward with response activities at the site, and we appreciate your support in facilitating this effort.

Regards,

Chris Kennedy  
CKG Environmental, Inc.
