**Subject:** Resend: Request for Closure Kawahara Nursery

Mr. Kawahara,

ACEH has 60 days to respond to this document and is completely aware of this report. There is no need to send the report multiple times by e-mail. We do not accept reports by e-mail and we recognize the date of submittal by the date it was received from the ftp site. I will review the document to ensure that my comments from the directive letter have been met and respond to the investigation report and review the site per the Low Threat Closure Plan.

Regards,  
Barbara Jakub

**Subject:** Fw: Request for Closure Kawahara Nursery

Hi Barbara,

It has been approximately a month since we submitted the attached subsurface investigation report which demonstrates that there is an insignificant amount of contamination in soil related to the former UST removed in the 1950s.

I don't believe there are any other outstanding issues to be addressed prior to granting site closure.

If there are please let me know as Mr. Kawahara would like to sell the property.

Kindest Regards,  
Frank Goldman, CHG

Barbara,

Attached is a subsurface investigation of the former UST, as discussed in the Site Conceptual Model meeting, that will be uploaded to your ftp site early next week. No significant contamination was identified.

The attached report recommends site closure.

Please let us know if you plan to close the site based upon this latest report submittal.

Kindest Regards,

Frank Goldman, CHG
