Subject: Claiming Site in State Geotracker Database

Fire Marshal Crudo,

Thanks for your time; it was good to finally connect by phone. I've attached a link to get to the Geotracker site so that the old UST case can be claimed by either the City or the Fire Department. As mentioned this simply acknowledges an existing link (ownership) between the city and the UST. This request is limited to claiming the site (which will prevent an enforcement referral up to the Regional Water Quality Control Board). We know the site as "City of Albany Fire Department"; our local case number is RO0000297, and the state identification number is T0600102152 (the Geotracker number). Probably the best way to claim the site is to talk to Hamid Foolad or to call the Help Desk at the listed numbers. Hamid is very helpful. Once the site is claimed, would you please send the confirmation acknowledgement to me; email definitely works. If you have questions, do let me know, or talk with Hamid.

Thanks!
