

Site Summary STID 4619
Frank's Tire Service
1115-21st St.
Oakland CA 94607

- 11/23/93 JE removed 500-gal UST
- 12/2/93 received lab results: 630 ppm TPHg and 0.6 ppm benzene below UST at approx. 9'bgs. . . . spoke w/RP Mr. Frizzie. Geltz Machinery Co. was last tank operator. Frizzie never operated tank. If cleanup gets too expensive, he may pursue Geltz, but not at this point. Wrote NOR.
- 12/7/93 Spoke w/Lee Huckins of TPE. They'll give RP a bid this week. MWS will probably be needed.
- 1/24/94 spoke w/L. Huckins. Can they overex and resample without a wp? yes.
- 4/13/94 phoned LH of TPE. Nothing ever happened. They didn't backfill. . . . visited site. SP still on sidewalk. Pit covered w/plywood.
- 4/14/94 wrote RP a letter requesting UST Closure Report and soil remediation.
- 5/4/94 spoke w/Lee Huckins of TPE. Wants to overex and resample on 5/6.
- 5/6/94 Eva witnessed overex and resampling
- 6/8/94 Phoned TPE for lab results. They just mailed report to RP a few days ago.
- 8/3/94 spoke w/Fran Frizzie (after many phone calls). He has report and will copy and send to me. SP still onsite; covered up. Gave him new address.
- 8/8/94 Received Tank Closure Report.
