Subject: Due Date Extension Request - Fuel Leak Case No. RO0000304
Date: Tuesday, March 03, 2015 4:41:54 PM

Hello Jerry,

Pangea Environmental respectfully requests an extension from March 5 to May 5, 2014 for submission of the Additional Site Assessment Report for Fuel Leak Case No. RO0000304 (7240 Dublin Boulevard, Dublin). Pangea collected soil samples from borings SB-3 and SB-4 and soil and groundwater samples from boring SB-5 on February 23, 2015. Due to unmarked utilities in the street and median, we were unable to drill soil borings SB-6 and SB-7. Pangea plans to move proposed soil borings SB-6 and SB-7 approximately 10 ft closer to the site to avoid subsurface utilities. Please let me know if you have any questions, or need any additional information.

Regards,

Elizabeth Avery
Staff Geologist
