Entry Type: Phone call
Start: Tue 4/11/2006 10:59 AM
End: Tue 4/11/2006 10:59 AM
Duration: 0 hours

RO337 - 989 41st
04/11/06, Tues, 156p,
Paul King, 658-4363
TPH & B exceed cleanup goals, will do remediation, soil & GW
How much post remedial monitoring is needed, timeframe, rules guidelins
Full hydro cycle or 1 yr

04/17/06, 1040a, AS & SVE
Had talk w/Chuck Headlee he discussed his thoughts
Told Paul monitoring system for GW plume located to evaluate change in plume, d/g , its site specific, consider
timeframes for aq to stabilize after remediation & for GW from source to move d/g to MWs so actually demonstrating
cleanup, not likely to demonstrate this in a year or two.
He agrees & feels we are on the same page.
