DEAR MS. BARBARA JAKUB P.G. :

I am writing this letter on Monday Aug. 17, 2009.

I just received your letter dated July 24, 2009.

I'm sure the address where the letter was sent was computer generated, therefore you need to know it is still going to the wrong address. The current address should be :

Fiesta Beverages

9890 STEELHEAD RD

PASO ROBLES, CA 93446

I will forward the letters to Blymyer Engineers as they are still handling our project. As you are aware, Mark Defferman has left their employ, so for the interim, Mike Lewis is going to oversee the project. Mike did not replace Mark Defferman therefore we may have to get another firm to follow thru with the closure of our site.

We are hopeful this goes smoothly because as you know the superfund has suspended payments because of the "shortage of funds", therefore this is becoming very financially challenging.

Thank You for your attention.

Sincerely

Jed Valley
