Subject: Addendum for Soil and Groundwater Investigation and  
Monitoring Well Installation Report for Fuel Leak Case No. RO0000317.  
Mash Petroleum, 5725 Thornhill Drive, Oakland, California 94611

Dear Mr. Hwang:

Based on the ACHCSA's review of SOMA's referenced report, which was submitted to your office on April 16, 2004 for the well installation at the above referenced site, your department requested the well boring logs for SOMA-1 to SOMA-3. In response to your request letter, which was submitted to SOMA on October 13, 2004, the boring logs for wells SOMA-1 to SOMA-3 are enclosed with this letter.

Based on the results of the March 2004 site investigation, SOMA determined that the most appropriate location for the installation of well SOMA-1 was in the southeastern section of the UST cavity. The location of this well will verify the groundwater flow direction and help determine the overall site water quality conditions.

If further information is required, please call Tony Perini or myself at 925-734-6400.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mansour Sepehr', is written over a horizontal line.

Mansour Sepehr, Ph.D., P.E.  
Principal
