**Subject:** Paco Pumps

Hello Mark,

This email is a little over due, pardon the phone tag last week.

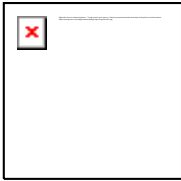

I will expect your approval/and comments on the Paco work plan on or before September 23, 2017. In the meantime, I will schedule the drillers to install the well in early October.

As per your message, our third quarter groundwater monitoring event will be postponed in to late October, after the new well has been installed and developed.

If this time line is incorrect, please let me know asap.

Thank you,

Jake
