---

Hello George, Frank, and Brand:

Thank you for attending today's meeting at our office for a discussion of the March 21, 2014 Site Conceptual Model (SCM) prepared on your behalf by PSI and Alameda County Environmental Health's (ACEH) Low Threat Closure Policy (LTCP) Evaluation. We believe that the case is ready for closure as it meets nearly all of the LTCP's criteria. The remaining data gap is regarding the Media Specific Groundwater Criteria.

Based on our review of the case file including the November 30, 2004 *Quarterly Monitoring – 2<sup>nd</sup> and 3<sup>rd</sup> Quarters and Backfill Sampling Summary Report* prepared by MACTEC, elevated concentrations of TPHG, TPHD, and BTEX were documented in a groundwater sample from soil boring B-2 located adjacent to the storm drain southwest of the site at the intersection of Telegraph and Claremont Avenues. We are concerned that the storm drain may be acting as a conduit for plume migration. To advance your case to closure, please plot a projected maximum plume length boundary along the storm drain corridor alignment using the location of soil boring B-2 as the source. Please also plot a second boundary on the map 1,000 feet from the plume boundary for determining compliance with the LTCP with respect to sensitive receptors. Please use the *Technical Justification for Groundwater Media-Specific Criteria* to determine the appropriate plume length. Please include all branches of the storm drain and outfalls with the plotted boundaries.

### **TECHNICAL REPORT REQUEST**

Please upload the technical report to the ACEH ftp site (Attention: Karel Detterman), and to the State Water Resources Control Board's GeoTracker website according to Attachment 1 by the following schedule and file-naming convention:

- June 27, 2014 – Site Conceptual Model Addendum  
File to be named: RO323\_SCM\_ADD\_R\_yyyy-mm-dd

This report is being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

Online case files are available for review at the following website:  
<http://www.acgov.org/aceh/lop/ust.htm>

Thank you for your cooperation. Should you have any questions or concerns regarding this correspondence or your case, please send me an e-mail message at [karel.detterman@acgov.org](mailto:karel.detterman@acgov.org) or call me at (510) 567-6708.

Sincerely,

Karel Detterman, PG
