Start: Tue 7/10/2007 2:48 PM
End: Tue 7/10/2007 2:48 PM
Duration: 0 hours

335p, Tyler Johnson, 510-379-1229, lft msg to call me, have reviewed report have ?'s

340p, Mark Oddi, prospective developer, 510-813-8584,
markoddi@sbcglobal.net

Gave him general comments re: case, need addtl info will cc him on e-mail requesting
He is going to request extension on his contract.

Comments are:

Limited analytes

No boring logs

Boring locations surveyed?

DTW?

No scale map provided, site depicted as 2x its size per the assessors records, cannot cross-reference boring locations to AutoPro site.

[C] detected are higher than AutoPro grab GW [C]'s & appear cross-gradient to AutoPro site.

Not immediately apparent that [C] are from AutoPro, an u/g site, or the site itself
