End: Tue 4/24/2012 11:30 AM
Duration: 0 hours

Phone call with Frank Poss, PSI. I called him regarding his 3/26/12 letter Parish Khatri had recently given me. We briefly discussed the upcoming field work, which they had not yet started. Since they were going to implement the previously ACEH-approved 6/26/09 work plan I said I'd send them a new directive letter which would include the following items:

1. Find & rehabilitating MW-5; he said it was apparently paved over and if they can locate old survey data, they'll try to locate it;
2. Prepare a Site conceptual Model, using all site & off-site data, including cross sections;
3. Determine if all site wells really have submerged screens, which could be masking free product at the site;
4. Prepare hydrographs with both groundwater and contaminant levels.

He mentioned that George Tuma is the last surviving partner of Tri-Star Partnership and I asked for Mr. Tuma's e-mail address.
