Subject: RE: 511000 - RO0000327 - Oversight Transfer ~COR-511000~

Thanks for the clarification.

In your letter dated December 8, 2011, you request submittal of a system start-up report by June 19, 2012. CRA has prepared the report and is making the final formatting edits. As you mention below, the oversight of this case is in transition to the RWQCB and future reports do not need to be uploaded to the FTP site.

However, in the interim, this email is to notify you that the system start-up report will be uploaded to the Geotracker database in the next couple of days.

There is an ongoing redistribution of cases between Alameda County Environmental Health and the Regional Board. RO327 is one of about 100 cases that are being transferred. Future direction on the case will come from the Regional Board. You should submit future reports to GeoTracker. Submittal of future documents to ACEH is not required. The Regional Board is reviewing the cases and will assign a case worker in July.

Hello Jerry,

I received your letter dated May 31, 2012 regarding the oversight transfer of Fuel Leak Case No. RO0000327 to the San Francisco Bay Regional Water Quality Control Board and have a few questions.

- What is the reason for this case transfer to the SF Bay RWQCB?
- When will this transfer go into effect?
- CRA is planning to submit the System Install and Start-Up Report. Should this still be submitted to the Alameda County FTP site?
- Will Mr. Steven Hill be the new overseeing agent for this case?

I look forward to your response.

Thank you,

Bryan A. Fong
