Tim,

This case will need to be reviewed by the Water Board staff prior to next steps for the case. Once a case worker has been assigned at the Water Board, you may wish to meet with them to go over your proposals. Since ACEH is no longer the lead agency, I cannot provide direction beyond that.

Good afternoon, Jerry. The property owner has finally agreed to execute the deed restriction. I have attached a DRAFT copy for your review.

You had mentioned in recent correspondence that this matter was no longer under your regulatory jurisdiction and was transferred to the RWQCB. However, at this stage, I was wondering if you could provide some direction as to the next steps to take to get this site closed. Any input you could provide would be greatly appreciated. I can be reached at my home office (650-728-2392) or via mobile (650-622-6560).

Thanks again for your help during this process.

Best regards,

Tim

Tim,

This case will be transferred from Alameda County Environmental Health to the Regional Board for regulatory oversight in the near future. Therefore, you should make sure that you have completed all uploads to GeoTracker as required for Regional Board oversight.
