**Subject: Soil Disposal at Chevron Service Station #9-6607, 2340 Otis Drive,  
Alameda, California.**

Ms. Chu,

At the request of Chevron Products Company (Chevron), Delta Environmental Consultants, Inc. (Delta) has attached copies of weight tickets pertaining to soil disposal at the above referenced site. During February, 1991, Chevron conducted site upgrades of their fueling systems. Consequently, 518 cubic yards of soil were generated during site upgrades. Approximately 470 cubic yards of soil were disposed of at Redwood Landfill in Novato, California. Additional loads were disposed of at Vasco Road Landfill in Livermore, and at Kettleman Hills in Kettleman City. If you have any questions please call our Sacramento office at (916) 638-2085 or (916) 536-2612.

Sincerely,  
Delta Environmental Consultants, Inc.
