Subject: California Linen Vapor Well Installation Procedures
Attachments: 0304.R19 Figure XX.pdf

Hi Mark,

Proposed permanent soil gas wells VW3-SS and VW3-5 will be installed at locations shown on attached Figure XX. The purpose of the vapor wells is to evaluate locations where historical elevated petroleum soil gas concentrations have been detected at the site. The wells will be constructed and sampled using methods set forth in P&D's April 27, 2011 Subsurface Investigation Work Plan.

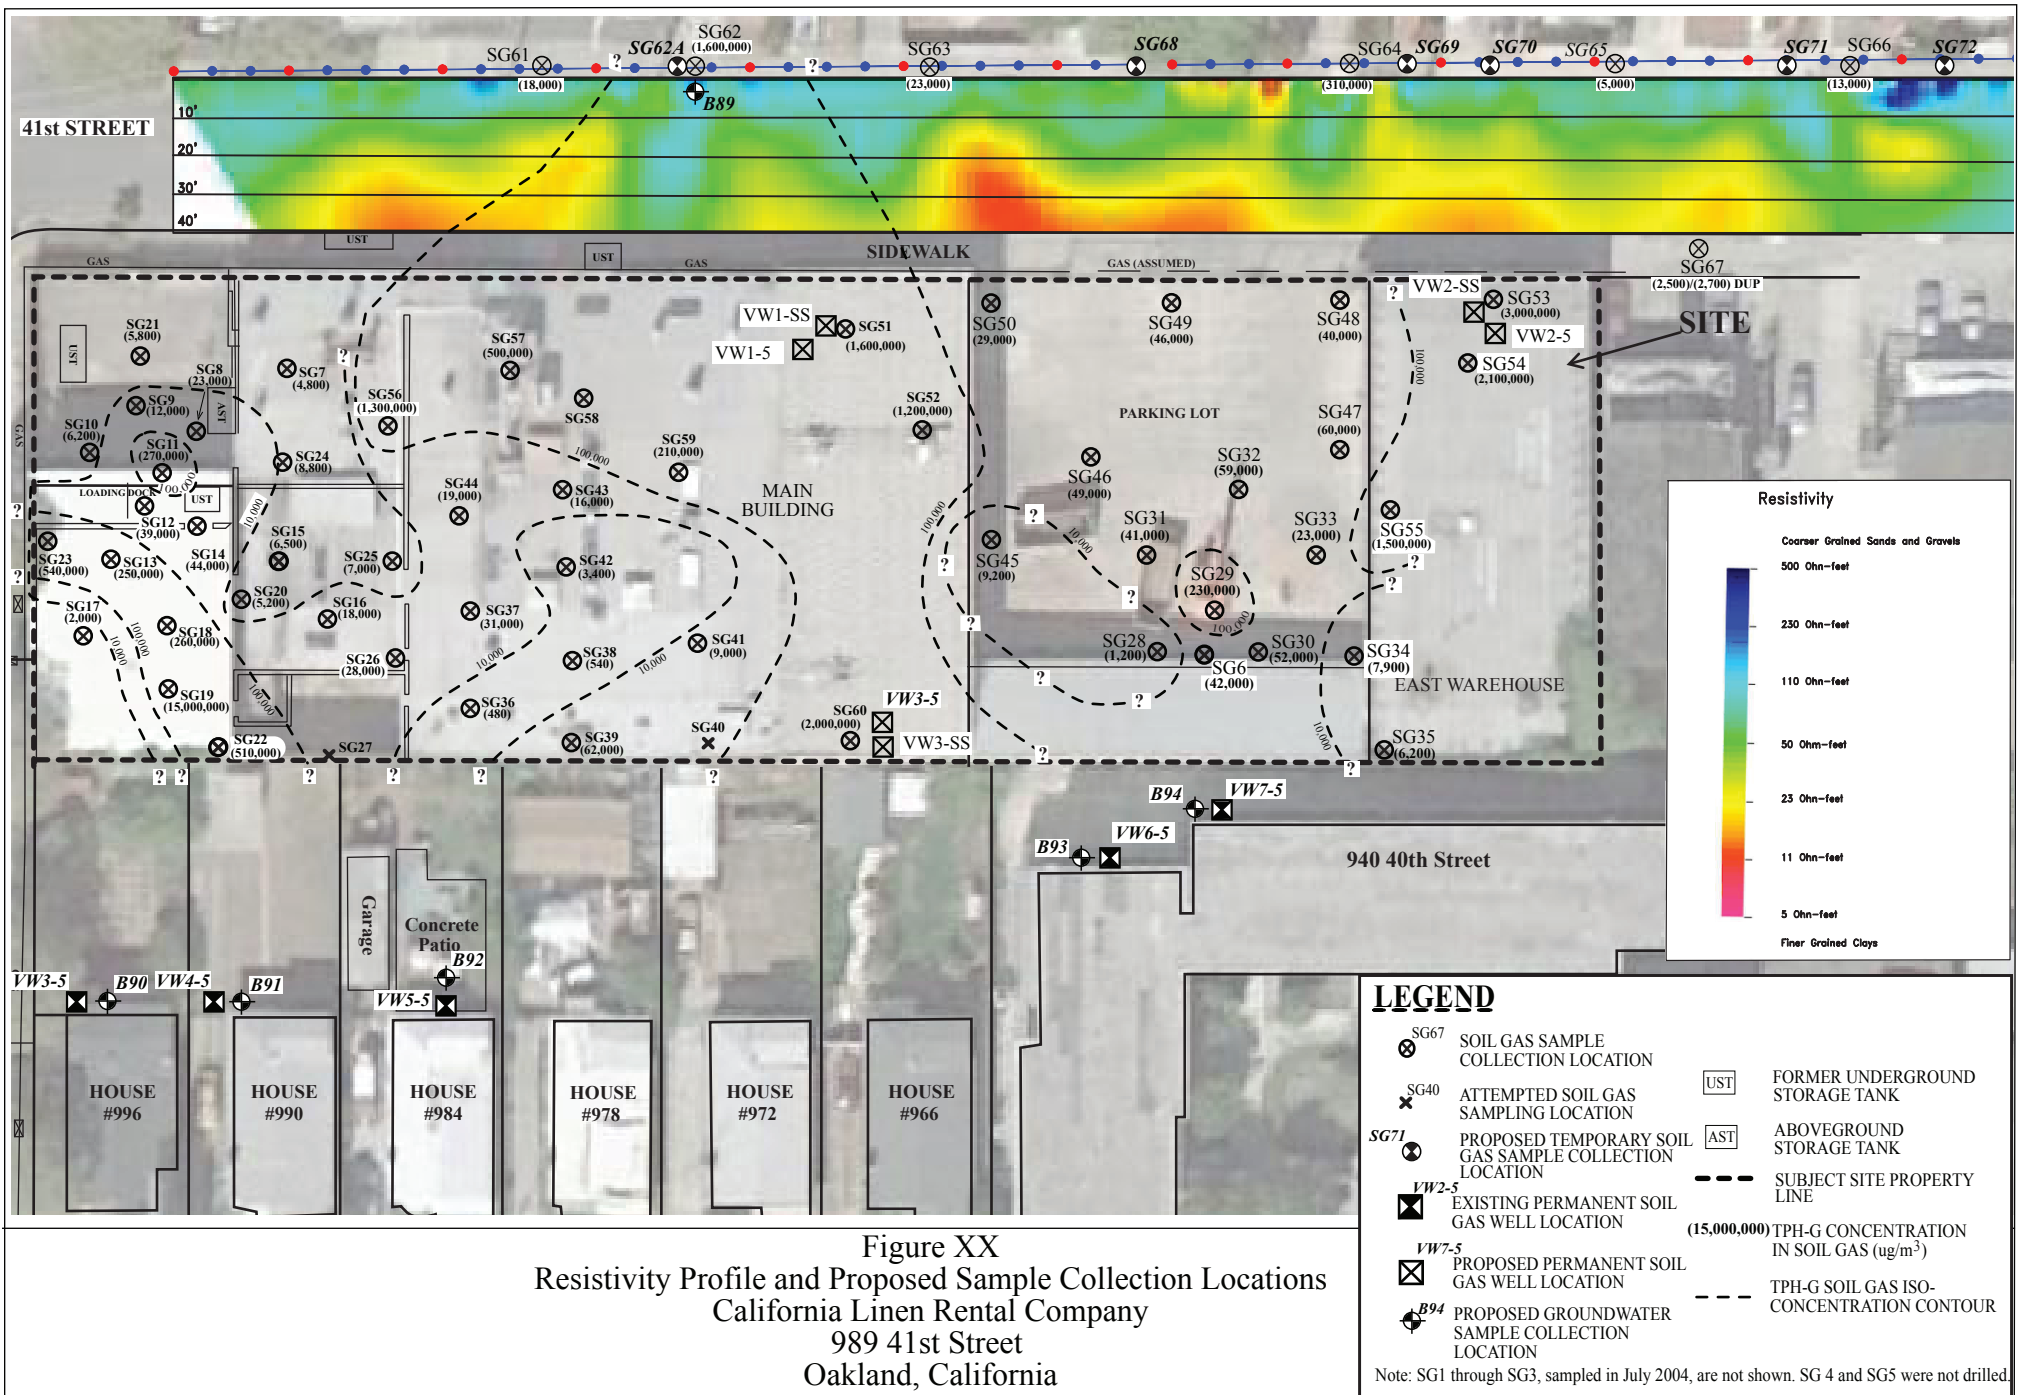

Please let me know if you have any questions or need any additional information. Thank you!

Paul
