Hi Nathan,

Please use this email as approval of the request for an extension as noted below. Please note that because there have been previous extensions additional extensions are unlikely. I took the opportunity to review the well and pref pathway report. Thanks for that information. I note that preferential pathways are discounted as significant pathways based on an "average" DTW and that could be the case; however, we would not fully discount those pathways (as I don't think you do) based on non-averaged DTWs. I guess this is just a request to keep that in mind as you review options.

Thanks,

Subject: RO# 0341, 9-1153, 3126 Fernside Boulevard Feasibility Study Extension

Mark,

In CRA's report *Preferential Pathway Study and Well Survey Report* dated September 30, 2010, CRA proposed that a Feasibility Study outlining remedial options would be submitted by November 30, 2010. CRA is still gathering data to insure that the correct remedial option is chosen for the feasibility study and would like to request an extension of **December 30, 2010** for submittal of the Feasibility Study.

Thanks,

Nathan Lee, P.G.
