Subject: Meeting Followup; 3126 Fernside Blvd / 3135 Gibbons Dr. Alameda, CA (RO341)

James, and all,

Rather than a letter as initially discussed in the meeting of November 5, 2018, it appears appropriate to provide an extension to the submittal date for the vapor investigation report. The original date was April 27, 2018. In order to keep the site compliant with ACDEH requests, which directly affects UST Cleanup Fund eligibility and reimbursement funding, I've extended the due date on Geotracker to December 14, 2018 as discussed in the meeting (not Friday the 13th as incorrectly identified in the meeting!). ACDEH will generate a directive letter once the investigation report is submitted, as discussed later on in the meeting. Thank you all for an interesting, and useful, meeting.
