Hello Tom,

For the above referenced site, deleting MTBE, EDB, and EDC from future groundwater monitoring analyses is acceptable.

Regards,

### Jerry Wickham

Hi Jerry,

A review of our quarterly monitoring SOW indicates that in addition to TPHg and BTEX we are also analyzing for MTBE, EDB and EDC in wells S-4, S-5, S-6, S-8, S-9, S-10, S-12, S-13, S-17 and S-18. Since the constituents of concern at the site are TPHg and BTEX, and MTBE, EDB and EDC have historically been below detection levels, can we remove MTBE, EDB and EDC from future samplings and analyses?

Your response is appreciated.

Best regards,

### Tom Sparrowe, PG
