Re: Groundwater Sampling Update Notification  
Former Chevron Station #9-5607  
5269 Crow Canyon Road  
Castro Valley, California  
Fuel Leak Case No. RO #350

---

Dear Mr. Mark Detterman:

Conestoga Rovers & Associates (CRA) is submitting this *Groundwater Sampling Update Notification* on behalf of Chevron Environmental Management Company (Chevron). In the April 30, 2010 *Fourth Quarter 2009 Groundwater Monitoring Report and Annual Update*, CRA recommended sampling wells C-7 and C-11 annually during the first quarter because hydrocarbons are no longer detected in these wells, moving the annual sampling of wells C-13 and C-16 to the first quarter to coincide with the annual sampling schedule, and sampling well C-9 semi-annually during the first and third quarters based on 24 years of data indicating stable to decreasing concentrations. If no response was received within 60 days, CRA planned implement the above changes to the sampling program. Since no response has been received in over 60 days, CRA is implementing the above changes to the groundwater sampling schedule, effective July 23, 2010.
