Took return phone call with Dilan Roe from Colleen in regards to the remedial actions proposed for the Crow Canyon Chevron. Ms. Osterberg and Nina Sobinina have provided letters and phone calls regarding their concerns and the potentially devastating effect on their lives and homes that it would have. As previously communicated the meeting was not worth the time, Chevron did not have any new site plans, and have said that they had no other options for system placement and they would go with them. This appears to be in conflict with the plans submitted to ACEH last week with a revised site plan. Review new plans with Colleen and line out changes that we will need to investigate. We will call Chevron later today to start that conversation.
