5.pdf

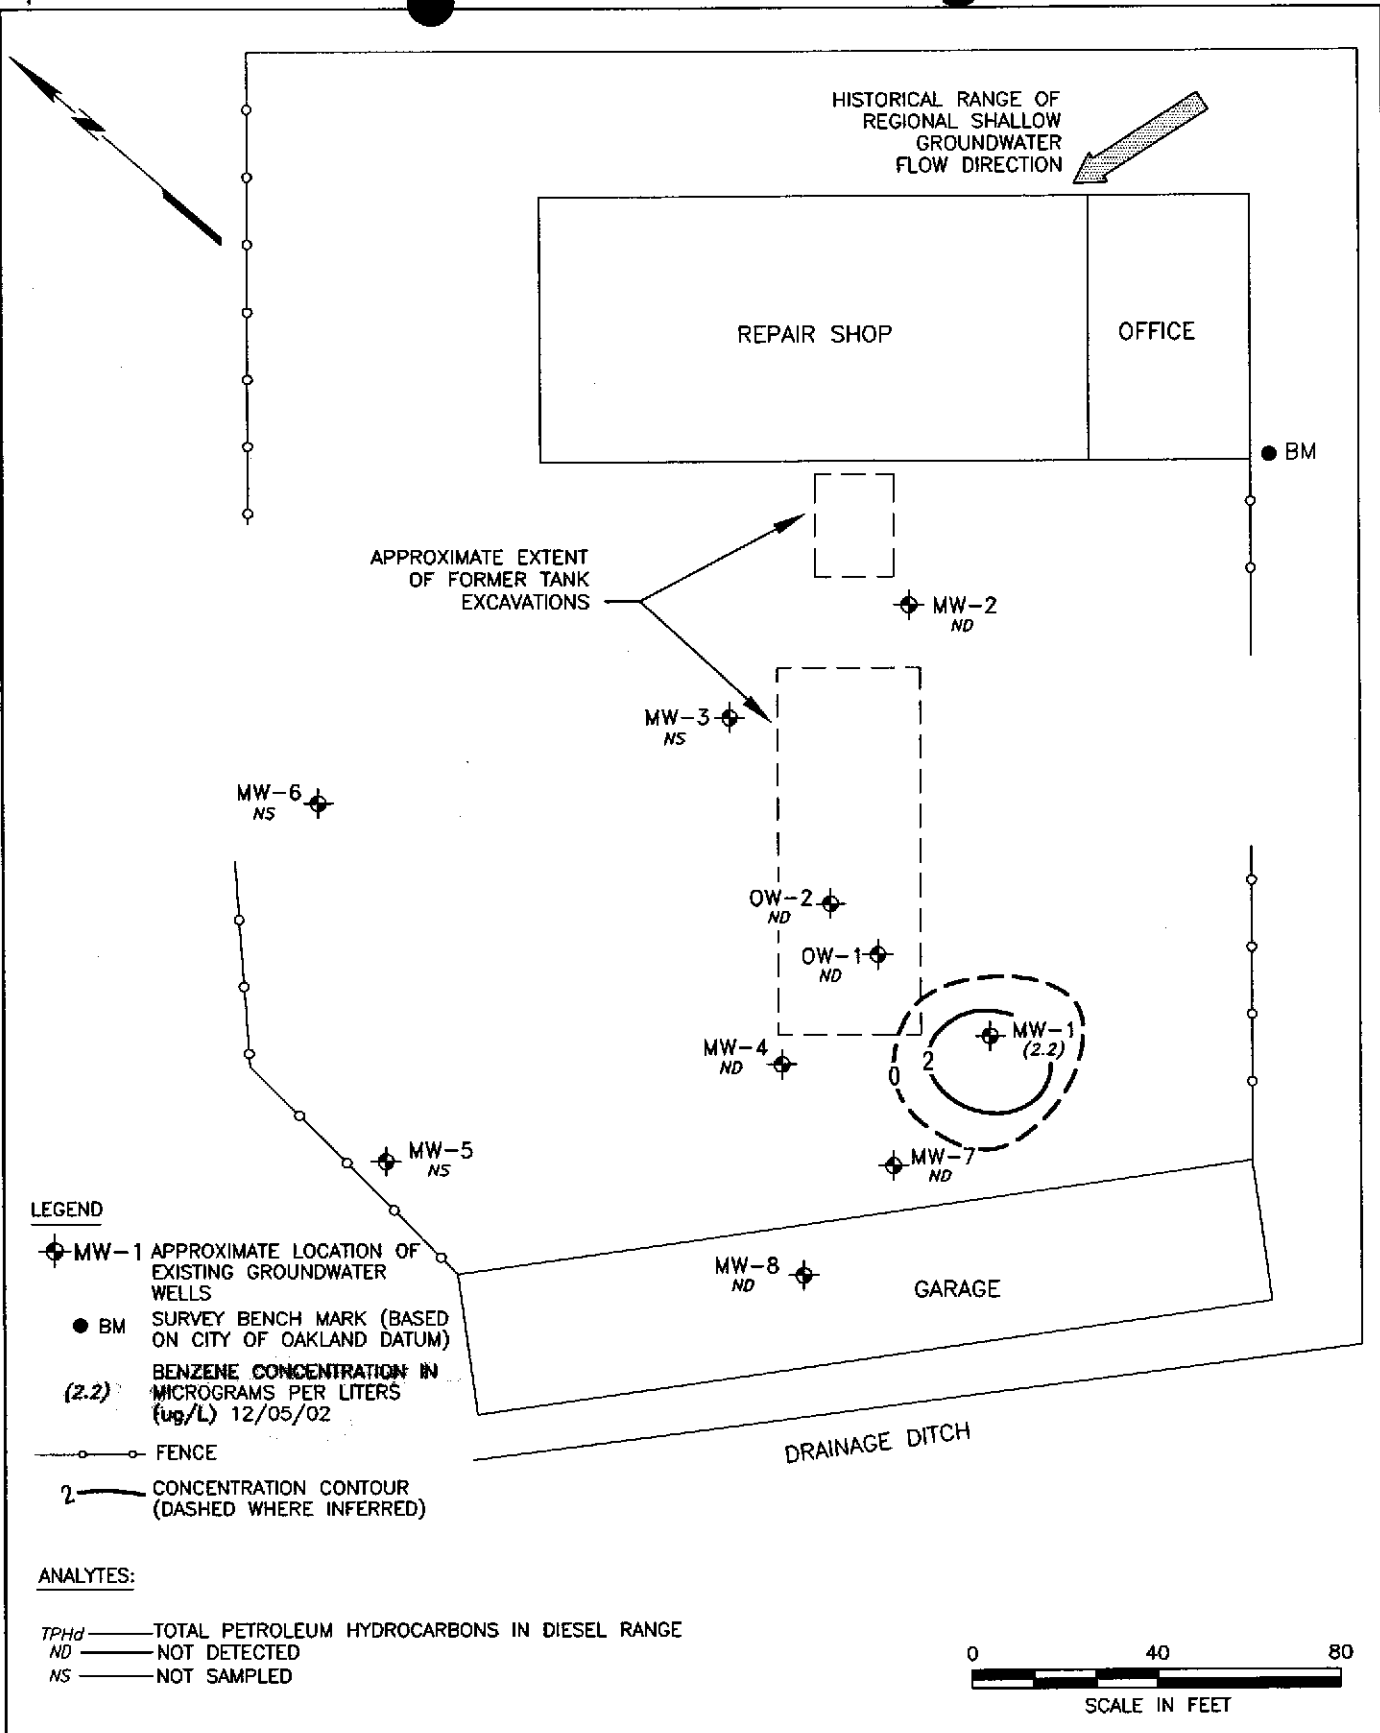

Amir,

Attached are the figures for the Former Penske ~~725~~ Julie Ann Way Site. I have attached both the pdf and dwg files for your review. You can download Volo View from the server at the following website. It is quick to download and will allow you to view the dwg file. There are four figures in the one dwg file. You can view each file by clicking on the "View" menu and selecting "Layout". Figures 5 through 8 will be listed, and you can select whichever you want. Once you have clicked on the Figure title in the menu, click on the upper right hand corner of the menu box to make it go away. You can do the same for each figure until you have looked at each one. To enlarge or shrink the image, click on the "+" "-" button on the toolbar above the image, and then put the cursor on the image, click and hold the button, and drag the cursor towards you to shrink it and away to enlarge. Please give me a call if you have any questions or concerns regarding the data or the operation of Volo View.

Thanks

Angus...
