Subject: RO354 - 725 Julie Ann Way
Entry Type: Phone call
Start: Wed 2/7/2007 1:25 PM
End: Wed 2/7/2007 1:25 PM
Duration: 0 hours

Angus Mcgrath, Secor, 925-299-9300

Wrote closure paperwork for Amir
Case languished
Then Don had case, no work performed

Potentially close to closure
Some issues re: TPH, no Benzene
Vapor issues? No soil gas sampling ever performed

Told him will log site, Don just left & I have to prioritize his caseload to address high priority sites. This site is not an immediate high priority. Will have to get back to him or RP with anticipated review schedule, do not have timeframe at this point.

IMPORTANT MESSAGE

FOR Barney

RO354 - 725 julie ann way - AMIR
3/10/05, 1031a, richard sotts, penske truck leasing, 610-775-6010, how we close?, 725 julie ann way, oakland
3/16/05, 1140a, lft msg

Hydrogen peroxide, understanding w/Barney years ago that it was closeable.
Calling CW a lot, no response, cannot get a response from office,
He cannot remember who he spoke to, he is in field today & will call back with specifics re: case
Secor, angus McGrath, is consultant
Performed cleanup did he perform verification sampling -- yes
Will followup next week

#554

10/20/94

Conversation w/ G. Keger. I asked whether G+ur will follow RBCA guidelines to determine whether a risk assessment or a fate + transport model was appropriate. He commented that 700ppb benzene was more realistic than 21ppb for GW cleanup goal. He will talk w/ P. Hehn (currently on vacation) next week + see if he agrees w/ the RBCA approach.
