Subject: Fuel Leak Case No. RO0000357 and Geotracker Global ID T0600101294, Snow Cleaners, 2678 Coolidge Avenue, Oakland 94601 – Groundwater Monitoring Requirements

Dear Mr. Turner:

The purpose of this correspondence is to inform you of changes to groundwater monitoring requirements for all fuel leak cases in California. The California State Water Resources Control Board (State Water Board) has approved Resolution No. 2009-0042 (*Actions to Improve Administration of the UST Cleanup Fund and UST Cleanup Program*). Resolution No. 2009-0042 states that, "*Regional Water Board and LOP agencies shall reduce quarterly groundwater monitoring requirements to semiannual or less frequent monitoring at all site unless site-specific needs warrant otherwise and shall notify all responsible parties of the new requirements no later than August 1, 2009. If more than semiannual monitoring is required for a case, the responsible party and State Water Board shall be notified of the rationale and the notice shall be posted on Geotracker.*"

The groundwater monitoring wells at your site do not appear to have not been monitored since 2008. In accordance with Resolution No. 2009-0042, groundwater monitoring for your site is to be conducted on a semiannual basis unless site-specific needs warrant otherwise. The semiannual monitoring is to be conducted during the first and third quarters. Please present results from the semiannual groundwater monitoring in groundwater monitoring reports no later than 60 days following the groundwater sampling event.

We also note that you have not responded to requests for submittal of a Subsurface Investigation Report presenting results from site investigation activities conducted from April 2008 to date. Please see our previous Notice to Comply dated April 23, 2009. The requested Subsurface Investigation Report is overdue and issuance of a Notice of Violation is pending.

If you have any questions, please call me at 510-567-6791 or send me an electronic mail message at jerry.wickham@acgov.org.

Sincerely,
