Sites in ALCO, stand alone SCM that Amir requested, stand alone doc
Amir hinted at examples
A couple sites are closures so want to get format correct
925-602-4710 x24

06/05/06, pm, discussed site & what an SCM is, its format, etc.
Recc he discuss sites with Steven before preparing further reports
He will contact Steven

phone call Paula Sime, Environmental Resolutions, 415-382-4324

ACEH letter dated 09/11/02, w/WP, missing data & conduit study due.

she wanted extension until end of Dec 02 for work plan. I told her 2 months not a reasonable extension for WP submittal.

She is having trouble getting utility info from PG&E & Pacific Bell; have utility info from city. Pacific Bell said they won't give out info, rely on USA. Told her she needs depths of utilities when identifying contaminant migration pathways, so USA locations won't suffice.

I suggested she she identify she has appropriate contacts for utilities' engineering depts &/or move up higher w/in the organizations to obtain info, also try city for info on depths of utilities. More effort needed, as ACEH is getting this info for other sites.

will give her an extension until 11/27/02 for WP submittal.

She will followup by e-mail.

12/3/91	PS	phone conv. w/ Joshua DeCovi w/ EA Engineering re over excavation at 2225 Telegraph has occurred 6 samples were collected this morning at various locations along the sidewalks. The pit has obvious contamination. In order to reflect the contamination which was not addressed by over excavation I requested Joshua to run each of the 6 sidewalk samples for TPH _g , BTEX, and Total Lead. He will FAX results + also provide report.
