Subject: Well Destruction Scheduling for Fuel Leak Case Closure Consideration for Fuel Leak Case No. RO0000359 (GeoTracker Global ID T0600100431), Dave's Station, 2250 Telegraph Avenue, Oakland, CA 94612

Dear Ms. Robison:

Alameda County Environmental Health (ACEH) is considering the above referenced site for potential case closure. Public participation, a requirement for the case closure process, has been initiated and will end on **May 22, 2015**. It is approximately mid-way through the public comment period, and no comments have been received to date.

Therefore, ACEH is requesting that you schedule the well destructions for the subject fuel leak case two (2) weeks after the end of the public notification period. Please provide ACEH (Attention: Keith Nowell) a confirmation E-mail by **May 8, 2015**, identifying the driller and the anticipated date of well destruction.

ACEH will submit an authorization to proceed with the well destructions in a separate letter following the successful conclusion of the public notification period.

Should you have any questions, please contact me at (510) 567-6764 or send me an electronic mail message at keith.nowell@acgov.org.

Sincerely,

Keith Nowell, PG, CHG
Hazardous Materials Specialist
