**Subject:** RO#359 2250 Telegraph Ave - Notification of field work

Hi Barbara-

As required in your Work Plan approval letter dated March 3, 2011, we are notifying you that we have field work scheduled for this Saturday, April 30, 2011. This Saturday, we will be installing well MW-7 within the nursery school playground adjacent to the 2250 Telegraph Avenue site. Well MW-8 (to be located within the parking lane of W. Grand Avenue) will be installed at a later date due to the City of Oakland's backlog with approving and issuing the Indenture Agreement and Minor Encroachment Permit. The City of Oakland has indicated that it may take 6 to 8 weeks to receive the permit. As a result, the results from the installation of well MW-7 this Saturday will be submitted to ACEH in a Soil and Water Investigation Report by the deadline of June 3, 2011; however the results from MW-8 will be submitted to ACEH in a separate report.

Please let me know if you have any questions.

Thanks,

**Karen Emery, P.G.**  
**Project Geologist**
