

Shell

meeting @ Zone 7

5-23-02

* irrigation well

- historic aerial survey (e.g. pump house)
- coordinates

also: Hacienda B.P. well

sentinal wells

- multiple well screen depths
- * - exploratory well first? no - check logs of wells, x-sections, etc.
- review logs of worst wells (Hsp6? others?)

* Sanitary sewer

- now having surveyor locate SS to find inverts

Wacko

- requested survey pt. in creek bed to confirm whether it is "gaining" or "losing"
- Zone 7 has gauging data

Other:

- various nearby well records (Hsp6, etc)
- come with a plan after all prelin work is completed
