

Chevron #9 - 8139
16304 Foothill
San Leandro

2/11/97

April 6, 1995 WA "Future Action Plan"

- ① Semi-annual for 2 yrs (2nd + 4th qtr)
- | | |
|------|-----------------------|
| MW-8 | <u>NO</u> (5/95 last) |
| 9 | O.K. |
| 10 | O.K. |
| 11 | O.K. |
| EW-2 | <u>NO</u> (5/95 last) |

Annually for 1 year (seasonal high water)

MW-8	
9	
10	
11	
EW-2	

- ② Discontinue
MW-1, 2, 6, 7; EW-1, -3

∴ Review of case history indicates MW-8
and EW-2 have not been sampled
since 5/95.

I spoke today (2/11/97) with Chevron's
Tammy Hodge. She agreed ~~to~~ to reinstate
the semi annual (2nd + 4th qtr) schedule
for all 5 wells. Therefore, EW-2
and MW-8 will be reinstated April 1997.

- Call to B. Sieminski
(GRI) re: proposed
location. I want it
moved closer to south
fence line. There's a
landscaped area between
the current trash enclosure

and station building
that might be accessed
by limited-access rig.
I asked That she
check it out.
