Steven,

I'll need more time to review them than the standard 60 days (due 12/7 per our acceptance stamp) due to multiple requests for closure for low priority sites. The LTCP effectively requires we prioritize low threat sites over sites that might need quicker responses, rather than getting worked into the lineup more slowly. Hopefully a temporary situation as the low threat sites get closed.

Hi Mark. I'm following up on the review status of our *Corrective Action Plan* (submitted 10/5/12) for the former Olympic Station in San Lorenzo. Can you give me a status on your review of the document?

Stephen J. Carter, P.G.
