**Attachments:** RO374\_USTCF\_CORRES\_L\_2013-09-20.pdf

Hi Dianna,

The SWRCB ordered the site be closed under the Low Threat Closure Policy on September 20, 2013, and ordered the wells destroyed and documentation of waste removal be provided by 6 months after the date of the order (March 20, 2014). Please see attached order. Page 4 contains the 6 month time line. The document is also posted at the Geotracker webpage for the site.

Because the wells have not been destroyed within the allowed timeframe, ACEH requests to be informed (by email) of the date of well destruction once well destruction permits have been issued by the Alameda County Public Works Agency. Please be aware, that because ACEH is required to track well destruction by the SWRCB, a Notice to Comply would be issued if a well destruction report has not been submitted to ACEH ftp website and to Geotracker by June 20, 2014.

Good luck with the well destructions.

Good Morning Mr. Detterman,

Per our phone conversation, please send us an authorized confirmation for wells decommission. Thank-you for your time.

Sincerely,  
ESTC
