**Subject:** FW: Drilling Permit Application at 15595 Washington Ave, on San Lorenzo St, 15576 and 15580 Lorenzo Ave, San Lorenzo

Hi Mark,

FYI:

You approved this work back in Jan of 2016, but the property owner never paid the fees and now the consultant has asked these permit be cancelled.

They said they will try to submit permits again when the property owner is back in the Country.

James

Santa Clara Valley - East Bay Plain (2-9.04)

**RB WATERSHED NAME**  
South Bay - East Bay (2-9.04)

#### **GROUNDWATER MONITORING FREQUENCY**

# OF WELLS MONITORED - SEMI-ANNUALLY : 10

### Site History

In August 1986 wells MW-1 to MW-3 and bores SB- to SB-3 were installed at the site. In July 1998 bores SB-A to SB-E, Geoprobe bores B-1 to B-15 were installed without a drilling permit, without offsite property access agreements, without final laboratory reports, and with available analysis conducted by a laboratory without state certification; the irregularities caused in October 2006 Geoprobe bores GP-1 to GP-8 and Cone Penetrometer bores CPT-1 to CPT-3 were installed. In April 2007

Not all historic documents for the fuel leak case may be available on GeoTracker. A more complete historic case file for this case is available on the website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.
