## Adjacent Property Owner-Access Cooperation Request

August 9, 2006

**Mr. Ronald & Mrs. Patricia Kelly**  
1814 Spruce Street  
San Leandro, California 94579

**Subject: Property Access by Enviro Soil Tech Consultants  
Responsible for the Investigation and Cleanup of  
Petroleum Hydrocarbon and Additives Pollution  
at 15595 Washington Avenue, San Lorenzo, California**

Dear Mr. & Mrs. Ottouich:

Alameda County Health Care Services Agency (ACHSA) is overseeing the investigation and cleanup of gasoline and additives from the fuel underground storage tanks at 15595 Washington Avenue, in San Lorenzo site. We do not know how far the contamination from the tanks had moved; however, it appears that the contamination may have moved to underneath yours property (15568 Lorenzo Avenue, San Lorenzo, CA).

The ACHSA is requiring Enviro Soil Tech Consultants (ESTC) to investigate and cleanup contaminated soil and groundwater at the site to prevent the gasoline and gasoline additives contamination from spreading to other properties and/or to drinking water sources. To properly determine the extent of that contamination in groundwater, ESTC must perform additional off-site investigation. Therefore, we need your help in allowing access to your property by ESTC in order to properly define the extent of contamination.

Ronald & Patricia Kelly  
August 9, 2006

Please all include a telephone number where we could reach when we are going start to work on your property. If you have any questions or require additional information, please feel free to contact our office at (408) 297-1500 or Mr. Barney Chan at (510) 567-6765 with ACHCSA.

Sincerely,

***ENVIRO SOIL TECH CONSULTANTS***
