Hi Jerry,

We have some positive TPH-G results for the soil gas samples at 2301 E 12th Street. We didn't include naphthalene in the analytical suite for the soil gas samples. Based on the positive TPH-G results, I recommend that additional analysis be performed for the soil gas samples that have already been collected for naphthalene. The additional cost is \$10 per sample. Please let me know if you concur. Thank you!

Best regards,
