Subject: Mel Senna Brake - 2301 E 12th Street, Oakland Sampling Schedule

Hi Mark,

We are presently approved by the client to sample the wells and the sub-slab soil gas wells. We will perform this work on Tuesday 10/18/11.

I am working with the owner to get approval for the subsurface investigation and for the pilot test. I will let you know once I receive approval for those. I am also looking into costs for injection of Regenesis products for in-situ chemical oxidation of petroleum hydrocarbons in groundwater downgradient of the former UST pits.

Paul
