2. No environmental work was conducted at the site during the first quarter 2000.

#### WORK PROPOSED FOR NEXT QUARTER (SECOND - 2000):

1. Prepare and submit quarterly status report for first quarter 2000.
2. No environmental work is scheduled at the site during the second quarter 2000.

#### DISCUSSION:

- As discussed in written correspondence (April, 8, 1999, letter from Pinnacle to ACHCSA) and telephone conversations between Pinnacle and ACHCSA, all future monitoring and remediation activities are indefinitely suspended for this site, with the understanding that the ACHCSA case for this site will remain "open", and the site will continue to be used as a gasoline station.
- ARCO will transfer this project to another consultant. The new consultant will begin providing services during the second quarter 2000.
