Subject: Site Status Update for ARCO Station 6113, 785 East Stanley Blvd.,
Livermore, California.

Dear Ms. Hugo:

This letter provides an update on investigation and remedial activities conducted for the above-referenced site. This update covers site activities performed during June 1992, and site activities anticipated for the month of July 1992.

June 1992 Activities

- Performed groundwater monitoring.
- Drilled and installed five monitoring wells (MW-5 through MW-9), one vapor extraction well (VW-1), and one soil boring (B-10).
- A state-certified waste hauler removed soil cuttings generated during drilling.
- Performed well development. Submitted soil samples for chemical and sieve analyses.
- Surveyed monitoring wells MW-5 through MW-9.

Work Anticipated for July 1992

- Continue monthly groundwater monitoring, and submit draft Second Quarter 1992 Groundwater Monitoring Report to ARCO for review.

Site Status Update
ARCO Station 6113, Livermore, California

July 24, 1992
61026.01

- Schedule installation of additional vapor extraction well and schedule vapor extraction test at the site.

If you have any questions or comments regarding this letter, please call us at (408) 264-7723.

Sincerely,
RESNA Industries

Joel Coffman
Project Geologist
