Subject: Site Status Update for ARCO Station 6113, 785 East Stanley Blvd.,
Livermore, California.

Dear Ms. Hugo:

This letter provides an update on investigation and remedial activities conducted for the above-referenced site. This update covers site activities performed during December 1992, and site activities anticipated for the month of January 1993.

December 1992 Activities

- Performed groundwater monitoring.
- Continued design of trenching and piping specifications for use during planned product-line replacement at the site.
- Submitted Final Subsurface Investigation Report to ARCO and regulators.
- Submitted Addendum to Work Plan for additional work to be performed at the site to ARCO and regulators.
- Wilkes Engineering initiated product line replacement. Roux Associates performed sampling as required by ACHCSA guidelines.

Site Status Update
ARCO Station 6113, Livermore, California

January 29, 1993
61026.02

Work Anticipated for January 1993

- Continue monthly groundwater monitoring.
- Upon gaining approval of Addendum to Work Plan for additional work at the site, will schedule the related field work. May be delayed by 4 to 6 weeks due to continued rain, which has delayed completion of product line replacement.

If you have any questions or comments regarding this letter, please call us at (408) 264-7723.

Sincerely,
RESNA Industries Inc.

Joel Coffman
Project Geologist
