Cynthia Dittmar called on 11/8/2006. Returned her call on 11/13/2006. She wants to submit a request for closure; has an e-mail from Amir with suggested items to include. She asked if they need to go out and collect groundwater samples. I indicated yes that in order to make case for plume stability, will need to have data to make case. She wanted to collect grab samples but I requested low flow purge prior to sampling. They will proceed with groundwater sampling and submit a closure request.
