**CASE NARRATIVE**

**General and Sample Comments**

We (STL ChromaLab) received 4 Water samples, on Aug 23 2000 10:30AM.

MTBE for sample MW-2 did confirm by 8260 GC/MS. It was not reported by 8260 GC/MS because at the time of the analysis MTBE was not included in our standard 8260 analyte list. 8260 for this run can not report MTBE due to the fact that the MTBE concentration exceeded the calibration limits.

**Analysis Comments and Flags by QC Batch**
