Phone # _____

SITE NAME & ADDRESS: Pacific Electric Motor; 1009 66th Ave., Oakland
TOPIC: Monitoring well sampling/FS Pilot testing status
SUMMARY: _____

Met Ron onsite. Current tenant is in process of vacating site.
Discovered an "oil water separator" consisting of a 55-gallon drum and pump located over a drain. May need additional characterization. This is located on the west property boundary approx 2/3 in from both Ave (North).
Ron was not sure when site demolition would begin.
Ron wanted to know status of CAP review. I told Ron the CAP was conditionally approved w/ the letter being mailed today.
