Phone call with Ron Goloubow of ARCADIS. He is submitting a groundwater monitoring report next week. He indicated no rebound after three years. They are getting comments back on a Land Use Covenant and Site Management Plan from USEPA. We will get a draft after they get comments back. Public notification would take place after USEPA agrees on closure. The school wants to build a gym in locations of two wells. Wells will need to be destroyed before construction. Well destruction does not normally occur until closure is approved.
