

# Aspire Golden State College Preparatory School

## 1009 66th Avenue, Oakland

### Environmental Work: January 6 - 9 and 17 - 18, 2015

Aspire Golden State School (Aspire) was built on a piece of property where motors were constructed and repaired from the late 1940s to early 2000s. Before Aspire was built, the property was cleaned up to make it a suitable and safe property for a school. All work was overseen and approved by the Alameda County Department of Environmental Health (Alameda County) and the US Environmental Protection Agency (US EPA).

Aspire is conducting follow-up environmental investigation work to prepare for the building of a new gymnasium/lunch room and to confirm that low levels of chemicals in groundwater and soil are not impacting indoor air quality. All work continues to be overseen and approved by Alameda County and US EPA.

For more information, please contact Tracy Craig at 510-334-4866 or [Tracy@Craig-Communications.com](mailto:Tracy@Craig-Communications.com) (available 24/7).
