Scott, I have this scheduled for the week of March 11 for review. I'll try to move it up one week.

Good morning. I was writing to follow up with you again in regards to the FS/CAP supplement that Stratus submitted in late December. When you can, please let me know what the status of this site is from your end.

Scott,

That might be good. I briefly reviewed it and have at least one question for you. Let me review the whole thing so I can ask you all the questions at one time. Maybe just another phone conversation will be enough since I have only identified one item that a brief discussion with Gowry will probably satisfy. I have been working furiously on the Low Threat Closure policy checklists so I have not been able to work on my corrective action sites. Can I let you know when I review the document and schedule a conference call at that time? Of course feel free to call or email again if we get close to the 60 day limit. I really want to keep this site moving.

Barb

Hi Barbara. Hope things are well on your end. About 1.5 weeks ago, Stratus prepared/submitted a supplemental document to a FS/CAP that you had asked for a few months back. I was wondering if you would like to meet/discuss the site before issuing a 'formal review letter' for the project? I was thinking that this might be the best way to productively move the project forward. Please let me know. Scott Bittinger 530-676-2062.
