Hello Doug,

This is to confirm the receipt of your email. I see the date of Barney Chan's Directive letter is for 2006. Please upload any documents prepared for the site that have not been uploaded to GeoTracker and/or our FTP site to aid in my review of your site. I would appreciate in receiving a list of any uploaded documents. Please provide contact information for your consultant and others associated with the project.

Regards,
Keith Nowell

Hi Keith,

It was great speaking with you today about Toxic Leak Case RO00000414, Metropolitan Oakland International Airport (MOIA) United Airlines, 1100 Airport Drive, Oakland, CA 94621. Please see attached the latest correspondence for the site from Barney Chan, and dated October 26, 2006.

Over the last several weeks we've assembled a case history and compiled data as requested in Barney's letter. We hope to complete our draft report within the next couple of weeks, and would like to discuss with you our goals of completing a deed restriction and obtaining site closure. Our consultants on the project are Lois Autié from URS with support from Yane Nordhav of Baseline Environmental Consultants.

Thanks again for contacting me today, and I look forward to meeting with you in the future.

thanks

Douglas Herman
