Subject: RE: Upload of Reports to Geotracker and County FTP Site

Thank you, Jim.

Jeff et al.

In the reconciliation table for RO27766/Berth that I created there were files for Hangar 6, Hangar 9 and OMC that needed to be moved from the Alameda County LOP site file to their respective files in Geotracker. The Hangar 6 files have been uploaded to Geotracker, the Hangar 9 file was already in Geotracker, and Lydia will take care of the one OMC file when she returns from vacation. Alameda County has deleted the files from RO2766. I believe this completes my tasks under the Port Regulated Site Reconciliation Project....thanks

Doug

We have uploaded the older Hanger 6 files to Geotracker. Please find attached the confirmation of successful upload.

Doug

If you sign, scan, and email back the attached authorization form for Hanger 6, we will get the Hanger 6 files uploaded to Geotracker.

Jim

Doug.

I am sending this just to you, since you may want to discuss before sending to all the cc's. We added four columns to your spreadsheet with notes for actions that you may want to implement.

Please advise. I will be at the Port and RSA most of the day today, but Jim can assist.

Yane

EMAIL #1

Hi Yane,

As we discussed, I reviewed County FTP Site 2766 4444 7th Street –Berth 30 and found that the folder had multiple reports and letters that belonged in other Geotracker or FTP site files at Oakland International Airport. I've attached a spreadsheet that describes all of the current files in RO2766. I have highlighted the files that do not pertain to site 2766, and need to be deleted from the project file by the ACHCSA database manager. The reports and letters associated with this spreadsheet need to be uploaded to the proper files in Geotracker and/or the FTP site.

I will begin to email the reports and letters to you this afternoon. Please upload them to the proper file when you get time. Please let me know if you have any questions...thanks
